DETAILED ACTION

Claim Rejections - 35 USC § 103

1. Claims 1-13, 15-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Price in view of Nagano as discussed in paragraph 1 of the last office action.

Regarding the gripper being attached to a paper conducting cylinder, the examiner notes that Price shows means 60 to hold the workpiece flat. This is a mechanical equivalent to applicant's gripper means to hold a workpiece flat. Furthermore, Nagano shows the use of means 42b to hold a workpiece flat that is a mechanical equivalent to applicant's gripper means to hold a workpiece flat.

2. Applicant's arguments with respect to claims supra have been considered but are moot in view of the new ground(s) of rejection. The examiner notes that both references show mechanical equivalents to applicant's gripper means and it would have been an obvious matter of design choice within the skill of the art to use gripper means to hold the workpiece flat since the use of gripper means and the means of Price and Nagano solve the same purpose of holding a workpiece flat. See in re Kuhle, 188 USPQ 7 (CCPA 1975).

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3721

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
